The company **Svepro d.o.o.**  
Street/no **Batajnički drum / 283c**  
Postal code / City **RS-11080 Beograd-Zemun**  
Country **Rep. of Serbia**

(hereinafter referred to as "Client") and

**TÜV SÜD Industrie Service GmbH**  
Certification Body Material and Welding Technology  
Westendstraße 199, 80686 Munich, Germany

(hereinafter referred to as "Certification Body") conclude the following contract:

1. On the basis of successful evaluation / inspection of the manufacturing facilities, the client submits to the Certification Body an application for issue the required certificates acc. to the relevant product standard.

The client will file the application using the Certification Body's form "Application for Certification" (Annex 1\_M/F/C doc: QS/PÜZ0005/AT), which covers the scope of certification acc. to the relevant product standards. The order is only regarded as having been placed if the client has concluded a contract with the Certification Body and filed a signed application for certification.

2. The client and the Certification Body recognise the following documents as amended:
  - General terms and conditions of business of TÜV SÜD Industrie Service GmbH,
  - Testing and certification regulations of TÜV SÜD AG
  - General terms and conditions of certificate validity ("Application for certification" Annex 1\_M/F/C doc: QS/PÜZ0005/AT)
  - Relevant product standards
3. This contract applies in conjunction with the "application for certification" (Annex 1\_M/F/C doc: QS/PÜZ0005/AT) to certificates issued based on a successful evaluation / inspection of the client.
4. The monitoring intervals specified in the product standards apply. If the product standards do not specify the monitoring intervals, any superordinate regulations (e.g. EA – Guidelines, etc.) or specifications of the certification body for the concerned product standard apply.  
If the surveillance audit is not carried out on time, the validity of the certificate expires with immediate effect and may be withdrawn by the certification body.
5. In the case of assessments in accordance with the EN 1090-1 standard, the client must make a written declaration to the Certification Body in each year in which no on-site surveillance audit is carried out at the client's factory, stating that none of the situations set forth in Section B 4.1 of the EN 1090-1 standard have taken place.

The due date for this annual declaration is the first day of certificate validity (with a tolerance period of 2 months).

Failure on the part of the client to make this declaration to the Certification Body on time will result in immediate expiry of certificate validity. In this case, the Certification Body can withdraw the certificate.

6. For the performance of the evaluation / verification of the client, for the use or registration of the certificates as well as for other commissioned services, the prices as given in the respective offers of the certification authority to the client apply.
7. If the Certification Body introduces new or revised requirements to its certification scheme or certification process that may affect the validity of the issued certificates or otherwise influence certification, the Certification Body will notify the client in writing and request the client to implement the necessary changes, if necessary. By signing this contract, the client agrees to follow any requests made by the Certification Body in this respect. Otherwise, the certificates will become invalid. The Certification Body will verify that the client has implemented the appropriate actions, if any.
8. This contract will be valid for three years from the date of certification. Unless terminated in writing by either contracting party, observing a period of notice of three months to the end of the contract period, the contract will be automatically extended by a further three years. The certificate will become invalid on expiry or termination of the contract.
9. The place of jurisdiction is Munich.
